

Fast Track HCCI Essential Elements of Home-Based Primary Care™

Course Description

This one-day Fast Track workshop moves at a faster pace than the two-day Essential Elements workshop and is designed for learners who have some house calls experience but who are still relatively new to offering home-based primary care (HBPC) services for patients with complex medical conditions. Through this workshop, clinical providers, practice managers and operations staff will enhance their knowledge, competence, and performance in providing optimal HBPC based on current recommendations from national experts. This classroom workshop features case-based sessions focusing on clinical and economic factors unique to home-based primary care, including patient assessment; infection control; durable medical equipment; technology useful in enhancing patient care and productivity; coding and billing; provider safety and self-care.

Course Includes

- Three prerecorded, one-hour webinars:
 - “Creating a Business Plan and Budget for a Home-Based Primary Care Practice”
 - “Staffing Models and Strategies for Home-Based Primary Care”
 - “Building Value and Metrics in Home-Based Primary Care”
- Online Forum

Presented

Thursday, December 6, 2018
Philadelphia Marriott Downtown
Philadelphia, Pennsylvania

Fees

- \$395/Physicians
- \$295/Advanced Practice Providers, Practice Managers/Operations Staff, Residents/Fellows, and Allied Health Professionals
