

Course Description

This two-day classroom workshop is designed for experienced HBPC providers. Case-based sessions focus on higher-level topics in HBPC such as advance care planning, prognostication, care coordination and transitions of care, caregiver support, and challenging clinical issues such as dementia, polypharmacy, selected procedures and wound care.

New at the December course is hands-on sessions demonstrating wound care, gastrostomy and tracheostomy tube changes, and joint injections. You will leave this interactive workshop with information that you can immediately apply to your practice to not only help you provide the best patient care but also to help increase efficiency in practice operations!

Audience

This workshop is designed for the following types of professionals:

- Physicians
- Advanced Practice Providers (NPs, PAs)
- Nurses (RNs, LPNs)
- Practice Managers/Administrators
- Social Workers
- Residents/Fellows
- Medical Assistants
- Other Practice Operations Staff

HCCIntelligence™ Resource Center

At HCCI, we recognize the numerous challenges that can be encountered by home-based primary care (HBPC) providers and practice staff and the value of having access to knowledgeable experts and timely guidance. HCCI has developed a number of free resources under our HCCIntelligence™ Resource Center to help you and your practice.

Webinars

Every third Wednesday of the month,
HCCI hosts a free webinar on a clinical or
practice management topic relevant to
home-based primary care (HBPC).

Virtual Office Hours

Immediately following the monthly
HCCIntelligence™ Webinar,
HCCI hosts a 30-minute
Virtual Office Hours session.
