

Course Description

This one-day classroom workshop builds on the HCCI Essential Elements of Home-Based Primary Care™ workshop and is designed for clinical providers and practice managers/operations staff who have previous experience in providing home-based primary care (HBPC) and who are seeking to advance their knowledge, skills, and productivity to provide this care for patients with complex medical conditions.

This unique activity features case-based sessions focusing on higher-level topics in HBPC including; advance care planning, communication, and prognostication; care coordination and transitions of care; caregiver support; managing challenging clinical issues in HBPC, including dementia, polypharmacy, acute/urgent care, and wound care; coding, documentation, and billing for services beyond E/M; staffing models, workflow/scheduling, and productivity; and value-based partnerships.

Audience

This workshop is designed for the following types of professionals:

- Physicians
- Advanced Practice Providers (NPs, PAs)
- Nurses (RNs, LPNs)
- Practice Managers/Administrators
- Social Workers
- Residents/Fellows
- Medical Assistants
- Other Practice Operations Staff
