

## Course Description

This two-day foundational workshop is designed for learners who are considering or who are relatively new to offering home-based primary care (HBPC) services for patients with complex medical conditions. Through this workshop, clinical providers, practice managers and operations staff will enhance their knowledge, competence, and performance in providing optimal HBPC based on current recommendations from national experts. This classroom workshop features case-based sessions focusing on clinical and economic factors unique to home-based primary care, including patient assessment; infection control; medication management; acute/urgent care; technology useful in enhancing patient care and productivity; cultural competence; staffing, operations and durable medical equipment; coding and billing; provider safety and self-care.

## Course Includes

The Two-Day Classroom Workshop includes three, one-hour pre-recorded Webinars:

- Creating a Business Plan and Budget for a Home-Based Primary Care Practice
- Staffing Models and Strategies for Home-Based Primary Care
- Building Value and Metrics in Home-Based Primary Care

## Presented

March 21-22, 2019

Dallas, TX

## Fees

- \$625 / per person

## Audience

This workshop is designed for the following types of professionals:

- Physicians
- Advanced Practice Providers (NPs, PAs)
- Nurses (RNs, LPNs)
- Practice Managers/Administrators
- Social Workers
- Residents/Fellows
- Medical Assistants
- Other Practice Operations Staff
