

Process Auditing Techniques

This course focuses on the methods and techniques to conduct successful quality, safety, and environmental process audits for assessment or verification purposes. Internal and external process audits provide very valuable information to management and oversight organizations. Students should have already completed a basic audit training class such as Internal Auditing Basics or be an experienced auditor.

Quality Web-Based Training is accredited by the International Association for Continuing Education and Training (IACET) and is authorized to issue IACET continuing education units (CEUs).
