

Anti-Trafficking Education & Training

Did you know Experts believe Labor Trafficking is far more widespread than sex trafficking.? From the overwhelming number of reports we receive, it is Prevalent in Faith based organizations!

Facts and Statistics

Based on the latest report from PolarisProject.org Human Trafficking (Sex & Labor) is up 25%. Globally, as well as in the U.S.! Experts believe Labor Trafficking is far more widespread than sex trafficking.

Here are just a couple of recent examples in the news of Labor Trafficking in Faith Based Communities - which by the way, we receive reports about almost daily!

[AL - Religious Boarding School Owners Arrested on Labor Trafficking Students](#)

[CA - Church Leaders Indicted in Forced Labor of Homeless](#)

We receive calls and emails daily and in a lot of those cases the bottom line is many faith based 501-C3 non-profits are exploiting and trafficking vulnerable youth and adults all in the name of "god" or "salvation".

It's an Epidemic and it's Appalling!

Not only do victims suffer mentally, emotionally and physically but in many cases they are ruined financially and can not afford proper therapy in the aftermath of abuse and exploitation, which can then lead to a host of potential future problems such as depression, drug/alcohol addiction and even suicide.

Directly Helping Survivors

We are dedicated to helping survivors in any way we can.

We are proud to announce our collaboration with

California Community Foundation to assist Survivors of the [NXIVM Cult and Trafficking Ring](#) in receiving the much needed therapy and resources to help them recover from their experiences.

Quality therapy and resources can make all the difference for a survivor climbing their way back up! We are very happy to be directly assisting these Survivors in the Healing and Rebuilding process!

These cult and trafficking rings are at Epidemic proportions and that means the number of victims are at an all time high as well!

When there is an epidemic - what is the best course of action?

That's right - **PREVENTION !**

What is F.A.C.T. doing about this epidemic?

We are excited and proud to announce we've formed a collaboration with Trafficking expert Dottie Laster. She is 1 of only 80 people trained by the Dept of Justice in Anti-Trafficking.

We will be holding Preventative Education and Training Events in locations across the U.S. and in places like College and University Campuses - which is where many cults and traffickers target, lure and recruit their victims.

EDUCATE.EMPOWER.PREVENT

F.A.C.T. PREVENTATIVE EDUCATION & TRAINING
