

TEC21 models lifelong learning

Heidi Johnsen is a facilitator for TEC21's Phoenix, Arizona, EC-8, in-person cohort. She recently received a text from one of her cohort participants who shared she was trying something she'd learned in the Workshop Program in the classroom and her students loved it. She was so excited it worked and thrilled with the response of her students that she texted Heidi, *mid lesson*, to let her know.

TEC21 Executive Director Brent Dieckhoff tells us this—the rich surprise and delight of fresh ideas bearing fruit in the classroom—is one of the tremendous benefits of the TEC21 peer community.

“I am always learning. My facilitators are always learning. Our Workshop Program participants are always learning. Technology demands that we never stop learning and requires that we firmly grasp that we will never get to the point of knowing everything. When we take learning's great reward of hope, aspiration, motivation and excitement into the classroom, we inspire engagement and deepen impact. It doesn't get better.”

To join the TEC21 community of lifelong learners, [register](#) quickly, even with just your principal name, to save spots. Soft registration has closed and TEC21 will soon begin setting workshop dates for Season 17. To delay registration is to risk the possibility of not getting seats in your desired cohort from this exciting lineup:

- EC-8 educator cohorts (in-person and virtual options)
- **New! EC-8 principal cohort (virtual! Don't miss it!)**
- High school subject-specific virtual cohorts (ELA, science, social studies and theology)
- EC-12 music cohort (virtual)

If you have questions or would like TEC21 to walk you through the registration process, reach out soon to Brent [here](#) to schedule a video chat or call him at 316.641.8356. You can also send a quick email asking him to hold spots for you. If you're new to TEC21, find more information [here](#).
