

TEC21 IS GUIDING THE JOURNEY OF THIS GENERATION

Soft registration closed at the end of March for Season 17 of the TEC21 Workshop Program and TEC21 has begun setting workshop dates for 2025/2026. It's not too late to [register](#) and [join a cohort](#)! Plug your teachers into this exciting lineup:

- EC-8 educator cohorts (in-person and virtual options)
- *New! EC-8 principal cohorts (virtual, with number of participants increasing daily! Don't miss it!)*
- High school subject-specific virtual cohorts (ELA, science, social studies and theology)
- EC-12 music cohort (virtual)

Technology is advancing beyond our capacity to imagine it. Confusion and fear abound when the distinction is not drawn between the tool (technology) and the platforms, social media proclivities, screentime abuses and social/emotional concerns that develop from it.

TEC21 Founder/Executive Director Brent Dieckhoff tells us this is the mission of the Workshop Program: in a world in which technology will continue to dominate, TEC21 equips our Lutheran school educators for purposeful use of it. Inside TEC21's like-minded community of Christ followers, cohort participants learn to take their highest aim with technology to glorify God and promote transformative learning for the students who will be tomorrow's leaders.

TEC21 facilitates a groundswell of robust discovery and application in the Lutheran school classroom through the sharing of strategic and practical wisdom and the guidance of master facilitators. Because of what happens in our cohorts, confused parents meet teachers who are well equipped to guide them to ask the right questions and implement best practices at home.

If you have questions or would like TEC21 to walk you through the registration process, reach out today to Brent [here](#) to schedule a video chat or call him at 316.641.8356. You can also send a quick email asking him to hold spots for you. If you're new to TEC21, find more information [here](#).
