READY together VA

Virginia's Employee Child Care Assistance Program

Virginia is launching a new cost sharing program to help employers support their employee's child care costs. Lawmakers passed legislation to create this program in 2026. Many partners are coming together to build this program. These partners include state leaders, Ready Regions, employers, child care providers, and families. Together, we want to build a program that helps communities, families, and business.

How does the program work?

EMPLOYER

Contributes funding for employees' child care costs

+

STATE

Contributes funding for working families' child care costs

+

FAMILY

Provides a copay for child care based on household income

Preparing for Ready Together VA: An Info Session for Employers

LEARN MORE: SEPTEMBER 28TH AT NOON

Join us for a webinar to learn more about Virginia's new Employee Child Care Assistance Program. Participants will learn how the program is taking shape, why child care is an important workforce issue, what participation could mean for their organization, and what they can begin considering now. The session will also provide an opportunity to ask questions, share feedback, and learn about individualized support available to employers interested in further exploring participation.
