

Press Release

Schmalz workplace safe distancing solution

As parts of the world begin to emerge from the COVID-19 pandemic, many organizations have implemented safe distancing measures which going forward will be part of everyday operations.

“Team lifts”, which involve two or more workers lifting heavy, large products or workpieces, are required in numerous stages of the supply chain process. This approach not only puts workers’ backs in danger but it also puts workers in unsafe proximity of each other while lifting.

Schmalz JumboErgo, with a lift capacity of 80lbs. - 500lbs, eliminates the need for team lifts. In fact, a single worker can accomplish more in a safer manner with a JumboErgo than a team of workers could accomplish doing the same job.

About the Company

Schmalz is the global market leader in vacuum automation and ergonomic handling solutions. Schmalz products are used worldwide in applications in the logistics, glass, metal, automotive, packaging, and wood industry sectors.

The wide range of products in the Vacuum Automation unit includes individual components such as suction cups and vacuum generators, as well as complete gripping systems and clamping solutions for holding workpieces. Our Handling Systems unit offers innovative handling solutions with vacuum lifters and crane systems for industrial applications.

With comprehensive consulting, a focus on innovation and first-class quality, Schmalz offers its customers long-lasting benefits. Schmalz's intelligent solutions make production and logistics processes more flexible and efficient, while also preparing them for the increasing trend toward digitalization.

With its own locations and its sales partners, Schmalz is represented in more than 80 countries and in all important markets. The family owned company has over 1,100 employees at its headquarters in Glatten (in the Black Forest region of Germany) and its 17 international subsidiaries.

Schmalz' US headquarters in Raleigh, N.C., has been in operation since 1993 and employs about 100 people.
