

CAPTRON North America joins AHTD

CAPTRON North America is thrilled to be part of AHTD network and the opportunities we can explore together! Our company was founded near Munich, Germany in 1983 and has been expanding its product portfolio and application areas ever since. We opened our first American office in White Plains, New York in 2018 and are very proud to call Amazon Robotics, New Balance and STIHL part of our growing clientele. We strive to revolutionize the Industrial Automation industry with our highly innovative products which include Optical Sensors, Capacitive Sensors, Safety Switches, Fluid Sensors and Signal Indicators.

As we move into the new decade, we present to you our newest achievement. The CANEO series10. HMI has never looked better.
