

Lenze Americas Promotes Stephan Rottach to Executive Vice President of Operations

Rottach will provide strategic guidance to support continued improvement of operations at Lenze

UXBRIDGE, MA, NOVEMBER 28, 2017 – Lenze Americas, a global leader and manufacturer of electrical and mechanical drives, motion control and automation technologies, recently announced the appointment of Stephan Rottach to executive vice president of operations. Rottach previously served as Lenze's senior vice president of operational excellence.

"With over 20 years of experience in electronics and electromechanical devices – and the past four with Lenze – Stephan brings the industry know-how and knowledge of all things Lenze to continue to improve our operations," said Ralph Rosa, president, Lenze Americas. "He has proven himself to be a valuable member of the leadership team and his development of the operational excellence team has been invaluable. In his new role, I am confident Stephan will provide strategic development to continue to position Lenze at the forefront of the industry and promote growth as an organization."

Rottach joined Lenze in 2013 as head of corporate lean management before getting promoted to senior vice president of operational excellence. Prior to that, Rottach served as the president of SRI North America Corporation where he developed and implemented high-level strategies and partnerships while managing the overall operations of the company.

Rottach attended University of Applied Sciences in Kempten, Germany, where he earned his MBA in business administration, MBA in human resources and bachelor's in mechanical engineering.

About Lenze Americas

Lenze is a global manufacturer of electrical and mechanical drives, motion control and automation technology. As a global specialist in Motion Centric Automation, we offer our customers products, drive solutions, complete automation systems, engineering services and tools from a single source. We are a leading provider of automation solutions to the packaging industry, and our other focus industries include automotive, material handling and logistics, robotics, and commercial pumps/fans. With a global network of engineers, sales representatives, and manufacturing facilities, Lenze is well-positioned to meet the motion control needs of customers worldwide. Lenze Americas, the American subsidiary of Lenze SE of Germany, is headquartered in Uxbridge, Massachusetts, with an assembly and logistics center in Glendale Heights, Illinois. Corporate global headquarters are in Hamelin, Germany. Visit www.Lenze.com and follow us on [Twitter](#) and [LinkedIn](#) for more information.
