

We have a humanitarian crisis in America! As long as we stay silent we are complicit in it. There has always been human suffering, but we should always work to relieve it. We as a country are actively inflicting suffering upon others. This situation is intolerable. We must speak up against the separation of families, people being treated inhumanely, and people being marginalized because of race, ethnicity, gender, sexual orientation/identity, or citizenship status. We abhor this injustice that is taking place here in our country where we pledge liberty and justice for all. Unjust, inhumane treatment of immigrants, refugees and our own citizens must stop in order to protect them and to preserve our own humanity. We encourage you to join with us at Binkley Baptist Church (binkleychurch.org) or your own church, synagogue, mosque, or community group to work for the humane concerns expressed above.
