

Nourin Aman

Nourin Aman is a PhD student from Prof Dr. Abdul Nasir Khalid's lab at the University of the Punjab, Pakistan. She came to Canada as an immigrant and joined Dr. Jean-Marc Moncalvo's group as her co-supervisor. She is currently working towards completion of her PhD project since last three years at the Royal Ontario Museum and the University of Toronto. Her PhD project is to compile the otherwise scattered data of macrofungi of Pakistan into a compendium. She too is interested in studying biogeographical patterns of selected macrofungal groups of a geographic location with the variety of ecosystems. Last but not least, she collected and described truffles from the very first time from the arid region of Pakistan.
