

GREEN SCREEN FILM SERIES:

The Beaver Believers

Please join us for this month's film, *The Beaver Believers*, where you'll meet nature's hydraulic engineer, the remarkable beaver, and the equally remarkable people reintroducing them across the American West to do what they do best: restore ecosystems, re-green mountain valleys, and mitigate the effects of climate change.

In addition to the film, we will be having a guest speaker who will be sharing about their work with the watersheds in Napa County.
