

## A note about race fuel at Pueblo Motorsports Park

Along with the recent change in management at PMP comes a new fuel vendor – Renegade. The fuel purchase process and hours of availability differ now from how it operated in years past. Please take note of the Fuel Station location and hours of operation and plan accordingly.

Fuel is now purchased at the Fuel/Tech station down by Turn 9. The fuel station will be manned from 5:00PM-Midnight on Friday night during Friday Night drags and then on Sat & Sun it will be open from 7:00AM-9:00AM. You pay there at the Fuel/Tech Station.

**IMPORTANT:** the recent shortage of delivery drivers has caused extended fuel delivery times; delivery dates are frequently “approximate”. If you do plan on purchasing fuel at the track during the Lollapalooza weekend, please email me at [treasurer@rmvr.com](mailto:treasurer@rmvr.com) – before 9 pm Tuesday, August 10<sup>th</sup>. (Yes, August 10 - that date is NOT a typo)

Include PMP FUEL in your subject line and indicate how many gallons of **100 unleaded OR 110 leaded** fuel you might require for the weekend. This isn't necessarily a commitment to purchase – we just want to make sure the vendor has an adequate supply on hand for our racers.
