

A note about race fuel at Pueblo Motorsports Park

Along with the recent change in management at PMP comes a new fuel vendor – Renegade. The fuel purchase process and hours of availability differ now from how it operated in the past. Please take note of the Fuel Station location and hours of operation and plan accordingly.

IMPORTANT: If you plan on purchasing fuel at the track, or think you might, please email me – jonLwhiteley@comcast.net – before 9 am Wednesday June 9th. Include PMP FUEL in your subject line and let me know how many gallons of which fuel you might require for the weekend. This isn't necessarily a commitment to purchase – we just want to make sure the vendor has an adequate supply on hand for our racers.

From PMP Management

Fuel is now purchased at the Fuel/Tech station down by Turn 9. Currently we are not authorized to operate as a fuel transfer but we are selling 55 Gallon Drums & 5 Gallon Pails of Renegade Racing Fuel. In the near future we will be able to sell by the gallon but right now that is not an option for us.

The fuel station will be manned from 5:00PM-Midnight on that Friday night during Friday Night drags and then on Sat & Sun it will be open from 7:00AM-9:00AM. You pay there at the Fuel/Tech Station.

CURRENT FUEL PRICING & AVAILIBTY AS OF 5/28/2021 @ 12:00PM
