## Alexa Foreman Discusses *The Sting*

### About The Lecture

Join us for a Movie Talk with Alexa Foreman as she returns to discuss *The Sting*. The reunion of stars Paul Newman and Robert Redford following their teaming in the legendary *Butch Cassidy and The Sundance Kid* (1969) was a cause for celebration. The movie earned 10 Oscar nominations, winning 7 of them, including Best Picture and Best Director for George Roy Hill, who had also directed *Butch Cassidy*. The Oscar winning ragtime soundtrack adapted from composer Scott Joplin led to a resurgence of his work. Don't miss this fun behind the scenes talk on *The Sting*.
