

CELL PHONE INVESTIGATIONS TRAINING

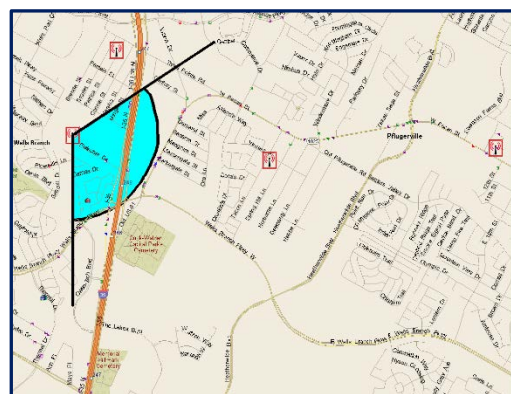

Sept. 23-25, 2025 - 3 Days – Tues-Thurs
8:00 AM – 5:00 Pacific Standard Time (PST)
Commerce, CA – LA HIDTA

Law Enforcement-Only Training Includes the Following and More:

- What cell phone records are available from cell phone companies, including subscriber information (basic and advanced) and various forms of call/communication detail records (CDRs) of phone calls, SMS/MMS/instant messages, voicemails, Internet data (IP logs, web traffic, etc.), geographic records [cell site/sector, advanced/specialized, etc.], etc.?
- What info is available on the physical cell phone devices themselves (cell phone digital forensics)? What cell info may be available from third parties (e.g., apps, websites, etc.)?
- How does law enforcement use cell phone information?
- Introduction on how to interpret, analyze, map, surveil, archive, and present this extremely valuable information that exists in essentially **EVERY** criminal investigation conducted.
- Detailed introductions to various forms of company records.
- What real-time surveillances may be conducted on cell phones, including traps and traces, pen registers, geolocates (“pings”), electronic communications intercepts (“wiretaps”), etc.?
- Detailed introduction to the geographic records that are available from cell phones, and how to map this extremely valuable information with cost-free, inexpensive, and commercially available tools.
- Introduction to important legal considerations for working with cell phone information.
- Important considerations for documentation and courtroom testimony regarding cell phones.

24 Hours of Training / LA HIDTA Training
LA HIDTA Training Center
5801 E. Slauson Ave. (Garden Level)
Commerce, CA 90040

Map of Location for Directions: [HERE](#)
