

CAMP KAWARTHA LIVING BUILDING PROJECT

CAMP KAWARTHA IS STRIVING TO BUILD ONE OF THE **FIRST FULLY CERTIFIED** LIVING BUILDING IN CANADA

URBAN AGRICULTURAL SPACE

PLACE

Only build where it is acceptable to build, protect and restore a place once it has been developed, and encourage the creation of communities that are based on people and nature. For each hectare of development, an equal amount of land will be set aside in perpetuity.

HABITAT EXCHANGE

WATER

Realign how people use water and redefine 'waste' in the built environment. Use 100% of storm water onsite for internal water needs.

NET POSITIVE WATER

EQUITY

Spaces that are accessible to all, while also allowing access to fresh air, sunlight and waterways. Supporting a just and sustainable world.

ACCESS TO NATURE

ENERGY

Rely solely on renewable forms of energy and operate year round in a pollution-free manner to attain net-zero energy.

NET POSITIVE ENERGY

MATERIALS

Supporting a circular and regenerative economy by creating products that use healthy and safe inputs, and eliminating concepts of waste.

RESPONSIBLE MATERIALS

HEALTH + HAPPINESS

Contribute to an active, healthy lifestyle that nurtures the innate human/nature connection. Optimizing the health of products and creating environments that promote psychological well-being.

HEALTH

BEAUTY + SPIRIT

Buildings that elevate our spirits. Genuine effort to create aesthetically pleasing designs and environments. Creating opportunities for learning experiences about the project and its connection to the rest of the world.

BEAUTY

EDUCATION
