

# 2019 Medical Cannabis Symposium: The Intersection of Clinical Practice and Science

December 18, 2019 | 9am - 4pm | Somerset, NJ | \$125

The 2019 Medical Cannabis Symposium will explore current evidence-based science as it relates to medical cannabis and implications for clinical research, regulation, and medical practice. Physicians, scientists, pharmacists, nurses, and industry professionals are invited to attend.

This symposium will cover:

- The physiology of the endogenous cannabinoid system
- The impact of cannabis use on cognitive function
- The impact of cannabis use as it relates to mental health
- The potential role of cannabis as a medical therapy
- The public health impact of recreational and medical cannabis programs
- On-going work of local clinicians and researchers in the medical cannabis space

**Continuing Education Credits:** Available for Physicians, Nurses, and Pharmacists.
