

5 RIGHTS OF SAFE MEDICATION ADMINISTRATION

RIGHT DRUG

Ensure you have the right medication.

RIGHT DOSE

Milligrams? Grams? Be sure you have the right dose. Always ask for clarification if unsure about the dosage.

RIGHT PATIENT

Time for **TWO** patient identifiers!

RIGHT ROUTE

Oral? Subcutaneous? Be sure you are administering it according to the proper route.

RIGHT TIME

Once a month? Be sure to check the most recent dose administered!

BE SURE TO FOLLOW THESE 5 "RIGHTS" WITH EVERY PATIENT, EVERY TIME, TO HELP ENSURE YOU ARE ADMINISTERING MEDICINE SAFELY.
