Beau Groover

Founder & President, The Effective Syndicate

Ever wonder why we get those songs stuck in our heads? Ever have that recurring, nagging thought about some unfinished task or project? There is a very good and costly reason that it happens to all of us. Join us for this webinar as we explore both the business case and the psychology (mental health case) for workplace organization. We will explore why it happens, what is happening and why workplace organization is so very important to your overall performance.

each of our webinars:
text “SUPPLYCHAIN” to 42828**

FEATURING:

Lisa Anderson

Founder & President, LMA Consulting Group Inc

Amazon has turned the business landscape on its head. Netflix has transformed the entertainment industry. Uber has revolutionized the transportation industry. Aerospace firms are feeling the squeeze. Are you ready for what's next?

According to LMA Consulting Group's research study, The Amazon Effect: How Higher Customer Service Standards Impact Your Business and What You Can Do to Thrive, customers are no longer satisfied with quality products delivered on-time; instead, they want rapid delivery, “go the extra mile” partnership type service and collaborative R&D/ design. Creating a resilient end-to-end supply chain is no longer a differentiator; it has become a “must” for navigating disruption and achieving peak performance.

This presentation will feature an interactive discussion on strategies and methods for creating a resilient supply chain. In addition, instead of reacting to disruption, we'll explore ideas to turn that on its head – why not become the disruptor?
