

AACA Custom Car Signs

Do you have an AACA approved car sign for your car? AACA members can have these custom signs created to showcase all of their car's great features or to share the history and story of their car.

The sign is 16.5" tall and 12" wide. They are made of a hard plastic to withstand the elements. All signs include the AACA logo and website, as well as the year/make/model of your car and car owner information. The rest of the content is up to you. **You can add an image or photo to your sign for an extra \$5!**

The signs cost \$30 plus shipping. Contact **Tara Delutis** at AACA Headquarters if you would like to have a sign made or need more information: tdelutis@aaca.org or 717-534-1910.

Instructions:

1. Members need to email (preferred) or mail the information they would like to appear on the sign (about 300 words or less).
2. A proof of the sign is created and sent to the member for their approval before it is created. This provides members a last chance to make changes, corrections or add more information.
3. Once the sign is approved, payment must be received before the sign is sent for production. Payment can be a credit card via phone (preferred) or a check made out to AACA and sent to 501 W. Governor Road, Hershey, PA 17033.
4. This entire process takes about 3-4 weeks.
