What is an FMCSA Portal account?
The FMCSA Portal is a web system that allows employees of motor carriers to access FMCSA web systems. If your company has, or should have, a USDOT Number, you should have an FMCSA Portal account. If you do not already have one, you should register for a Portal account prior to registering for the Clearinghouse.

How will my Portal account be associated with my Clearinghouse account?
During your Clearinghouse registration, you will be prompted to link your Portal account with your Clearinghouse account. This will associate your Clearinghouse activity with your company's USDOT Number.

How you set up your Portal account also determines how you will use the Clearinghouse, as your Portal user role determines what your permissions in the Clearinghouse will be. For more information on the Clearinghouse user roles, see the chart at right.
