Integrated Care Board

Have you considered hosting Allied Health Professional & Nursing students placements?

Students require placements to apply theoretical knowledge into clinical practice to develop professional skills. We recognise that social care has a wealth of opportunities and experience that would enhance and diversify placement experience.

BENEFITS

A STUDENT PLACEMENT COULD ENRICH THE CARE OF YOUR RESIDENTS BY:

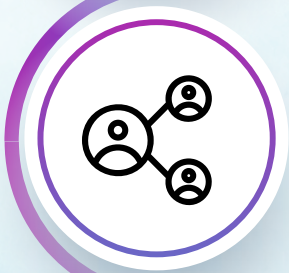

SUPPORTING
those with complex needs

PARTICIPATING
in MDT discussions

BRINGING
a fresh perspective of ideas

SHARING
evidenced based knowledge/ guidelines

Whilst on placement students may undertake projects and activities including but not limited to:

NURSING STUDENTS

- Medication Management
- Hospital Admission Avoidance
- Wound Care & Positioning
- NEWS 2/ Deteriorating Markers
- Health & Wellbeing

AHP STUDENTS

- Falls Management
- Mental Health Promotion
- Mobility & Physical Excercise
- Nutrition & Hydration
- Risk Assesments

NHS

Integrated Care Board

What you would need to offer:

A supportive team
Who are enthusiastic about practice-based learning

Opportunities
To practice competencies

Flexibility
To support students requiring reasonable adjustments

Induction
A placement induction

Training
Relevant in-house training that would support the placement

Time
For supervision and informal student support

Access
To IT equipment

Support you would receive:

Training
Practice Educator/ Assessor training from the University

Named Tutor
From the University to support you throughout

Visits
Site visit; Virtual visit; Phone calls as required for additional support

Induction
From BOB ICS Placement Leads

Payment
Of tariff that can be invested to support practice learning

Safety
All students have enhanced DBS and Occupational Health clearance

Students 'placement ready'
Mandatory training completed
