

SAVE THE DATES!

October 2-3rd, 2019

The Ruth M. Colket Visiting Professor Series

Anne Sales, PhD, RN

Associate Chair, Health System Innovation
Professor, Dept. of Learning & Knowledge Systems
Professor, Dept. of Systems, Population & Leadership
University of Michigan
Schools of Medicine and Nursing
Research Scientist
Center for Clinical Management Research
VA Ann Arbor Health System
Co-Editor-in-Chief, *Implementation Science*

Grand Rounds

“Evidence-Based Practice and Then What? Implementation Science on a Broader Scale”

October 2nd 10:30-11:30

CHOP Main Stokes Auditorium

Lecture

“Implementation Science: The Translation Pipeline”

October 3rd 11-12pm

CHOP Roberts Building 1120A

Lecture

“Automating the right thing to do: Digital Interventions”

October 3rd 2-3pm

Venue: CHOP Buerger Building 1212/1213

About the Visiting Professor: A recognized expert in health systems learning, Dr. Sales is an authority in implementation science. As a scientist, she studies the implementation and effectiveness of VA national nursing initiatives. She is the former Chair of the Institutional Advisory Board at the Institute for Health Services and Policy Research at the Canadian Institutes for Health Research and is former Canada Research Chair in Interdisciplinary Healthcare Teams at the University of Alberta. Dr. Sales' current work involves theory-based design of implementation interventions and understanding 1) the impact of feedback reports on provider behavior; 2) the impact on patient outcomes; and 3) the role of social networks in uptake of evidence-based practice implementation.

The Ruth M. Colket Visiting Professor Series engages nurse and interprofessional colleagues with experts in nursing science. The Colket Series serves the multifaceted needs of the CHOP enterprise by showcasing excellence in nurse-led programs of research; by modeling the value-added of nurse-scientists to interprofessional programs of research; by mentoring junior and mid-career scientists; and by exposing external promising nurse scientists to the research potential present in the CHOP-PENN community. The Colket Lecturer is invited to participate in a Dialogue and Discourse session on a hot topic in nursing; spend a half-day in engaged consultation and interaction with nurses in a hosting unit/department; engage with members of a Research Affinity Group (RAG); consult with leaders in the Research Institute; lead discussion at a joint CHOP PhD and DNP Community meeting; and visit with PENN doctoral students.
