

OVERVIEW

ALERT: TOMATOES, LETTUCE, CAULIFLOWER, ASPARAGUS, CITRUS, GRAPES

Markets are easing after Mother's Day, but supplies remain tight in row crops due to weather and disease in Salinas. Iceberg, broccoli, cauliflower, and romaine are still below normal, though iceberg is improving slightly. Tomatoes are declining as Florida, Baja, and Mexico ramp up, with grapes and cherries most stable. Strawberries are stabilizing as weather improves and demand softens.

TRANSPORTATION:

Freight this week continues to see shipper delays due to slower harvest times, and leftover effect of rain from last week. We are still expecting the freight market to be affected by these delays and will likely continue into May

WEATHER:

Florida: Dry through Thursday, then brief light showers in North Florida Friday–weekend; temps warm, dip slightly Fri/Sat, then rebound Sunday.

California: High pressure brings warming through the weekend, with lows in the 40s–50s and highs rising from 60s–80s Wednesday to near 100 inland by Sunday.

Arizona: Low deserts warm sharply under strong high pressure, with highs rising from 80s–90s Wednesday to 100+ by Sunday; lows also trend warmer with light southwest winds.

Mexico: Warm temps with light showers through Thursday, becoming scattered Friday and easing Saturday; most rain light with isolated heavier thunderstorms possible.

FRUITS AND VEGETABLES

Avocados: Avocado prices remain up a bit due to tightening supply.

Pineapples: **ESCALATED** Pineapple supplies are tight, especially 6/7ct and larger sizes, with contracts prioritized. Expect tight supply through April and higher Q2 costs.

Grapes: Green grapes are tightening on both coasts as Peru nears completion and Chile volumes remain lighter. Grape prices remain elevated due to tightening supply.

Bananas: Banana supply remains stable despite strong demand for school business rapidly ramping up. Overall, banana quality has been very good.

Apples: Little has changed in the market. Declining supplies and softer May demand should keep things balanced, with prices holding steady as schools break for summer. Retail bag programs continue to absorb smaller fruit, leaving 100-count and smaller sizes tight across Cosmic Crisp, Honeycrisp, Pink Lady, and Gala until the new crop arrives.

Pears: The market is gradually firming. Bartlett shipments are mostly finished, easing pressure on Anjou pears. Red pears are adequately supplied, and Bosc pears remain plentiful.

Blueberries: CMex production is tapering off, while California is beginning a gradual increase as we move into late April and early May. Georgia has started to come on lightly, and the PNW is expected to begin ramping up by midMay. Markets are trending lower in response.

Raspberries: **ESCALATED** Supplies remain light from CEMEX and Baja, keeping markets elevated as demand outpaces supply. Some quality issues are still being reported.

Strawberries: **ESCALATED** Rain/cold cut yields; Mother's Day demand tightens supply. Slight weekend relief possible, but market likely stays tight next week.

California Citrus

Lemons: **ESCALATED** Supplies are tight, quality is good, demand is strong, and the market is increasing. The crop is peaking on 95/115ct. Availability is tight on smaller sizes 140/165/200/235cts on both Fancy and Choice grades.

Imports/Specialties: **ESCALATED** Navels are mostly large sizes (56/72ct) with small fruit tight through season; flexibility needed, with 88/72ct encouraged for programs. District 2 is the main lemon region supported by District 1; mostly choice fruit, with peak sizing at 115/95/140ct and tight supply on 165ct and smaller

Limes: **ESCALATED** Supplies are steady, quality is good, demand is strong and the market is steady to lower. Harvesting remains focused primarily on smaller fruit, with the bulk of production peaking at 200ct and smaller. Larger sizes 110/150/175cts continue to be tighter.

STONEFRUIT: Imported peaches, plums, and nectarines are winding down. Nectarines are finished, and peaches are nearly done, with only small amounts expected late in the week. Imported plums will continue into April. Kiwi supplies from Greece and Italy are steady, while Chilean kiwi will begin in April. The last of the domestic kiwi has finished.

California Lettuce

Iceberg: **ESCALATED** The iceberg lettuce market is higher as yields are down from the recent heat event that also pushed fields 10-15 days ahead of schedule. Demand is exceeding supplies. Quality is reported as fair to good. The market on butter leaf, green, and red leaf are higher as supplies are expected to be lighter for the next few weeks and demand is stronger. Quality is good on all packs.

Romaine: **ESCALATED** The romaine market is higher on both romaine and hearts with lighter supplies and stronger demand. Hearts are very limited and supplies are struggling to meet demand. Quality is fair to good.

Eastern and Western Vegetables

Bell Pepper: **ESCALATED** Eastern green peppers supplies are plentiful and quality is good; demand is good and the market is lower. Red & yellow pepper supplies are tight, quality is good, demand is strong and the market is steady to higher. Western green peppers remain moderate and limited on larger sizes; colored bell peppers are moderate in volume. All peppers will remain tight until there is more production out of Coachella

Eggplant: **ESCALATED** Florida spring production is ramping up, though the market remains active for now. Mexico has yet to see the typical post-holiday dip, but it is expected soon. Eggplant market is steady.

Slicer Cucumber: Mexico supply is stabilizing as demand softens, with markets trending lower. Florida production is ramping up quickly, adding further downward pressure on pricing. Overall supply is expected to remain adequate, with Georgia coming on in mid-May and creating opportunities for promotions.

Zucchini & Yellow Squash: **ESCALATED** Eastern squash supplies are steady, quality and demand are good, and the market is increasing. GA has started. Western squash is on alert as supplies are limited with a range of quality but mostly #2 grade as wind has impacted the surface of products. Both squash markets are higher.

English Cucumber: Long English cucumbers are on alert as yields have dropped, affecting production from both Mexico and Canada. Demand is exceeding supplies in a number of regions, but volumes are starting to improve.

Green Beans: **ESCALATED** Eastern supplies are steady, quality is good, demand is strong, and the market is steady. Western volume is on alert as supplies range from limited to moderate with a new growing region ready to scratch. Post-holiday demand is low, and the market is expected to trend down with the desert starting up.

Melons

Cantaloupe: Offshore cantaloupes are available in California, Texas, Florida, and the Northeast. Pricing has increased due to strong demand, with retailers taking advantage of warmer temperatures and scheduled prebooks.

Honeydew: **ESCALATED** Offshore and Mexican are available but may face challenges throughout March. Plant virus issues in Guatemala and Honduras have left Mexican honeydews to help supplement the market.

Watermelon: **ESCALATED** Watermelon prices remain high; Mexican melons lead supply as offshore finishes and demand rises.

Mixed Vegetable

Artichokes: **ESCALATED** Quality is good, and supplies are limited.

Asparagus: **ESCALATED** Asparagus remains tight but improving as Mexico, Peru, and U.S. domestic regions ramp up into mid-to-late May.

Broccoli/Broccoli Crowns: **ESCALATED** supply is very low; weather cut yields, and prices may rise slightly next week.

Brocolini and Sweet Baby Broccoli: **WATCHLIST** The market has increased and demand is very strong and exceeds supplies. Markets are expected to continue to rise as production is very low the next few weeks. Quality is good.

Brussels Sprouts: **ESCALATED** Slightly tight; prices may rise a bit into the weekend.

Carrots: (JUMBOS, MEDIUMS, AND CELLOS) **ESCALATED** Imperial Valley leads production; supply should improve in 3-4 weeks as Bakersfield returns, with slowed harvests helping sizing and availability.

Cauliflower: **ESCALATED** The market is higher as production is extremely short and demand exceeds supplies. Volume is expected to be lighter for 2-3 weeks. Quality is reported as fair to good.

Celery: **ESCALATED** The market is higher on stronger demand and reduced yields, keeping supplies tight for the next 2-3 weeks. Quality is fair to good.

Cilantro: **ESCALATED** The market is active and supplies are very tight. High demand has continued. Growers should be able to cover normal volumes.

Corn: **ESCALATED** Eastern supplies, quality, and demand are good, and the market is steady to lower. In the West, Mexico is done for the season and waiting on CA to start production, with a large gap expected this year.

Fennel: **EXTREME** The fields are seeing lower yields and therefore there is a shortage in supply. Pricing will stay escalated until supplies improve.

Garlic: The market is mostly steady with good supplies and quality.

Ginger: Supplies and market are steady.

Cabbage: Demand is moderate, and supplies are fair. The market is mostly steady on green cabbage and higher on red cabbage with good quality reported.

Green Onions: **WATCHLIST** Supplies tight; market remains high.

Mushrooms: Excellent supplies and availability.

Napa Cabbage: **ESCALATED** Quality and supplies are improving.

Parsley (Curly, Italian): **ESCALATED** Supplies and quality look good.
