

DIGITAL Summer Enrichment+ Acceleration

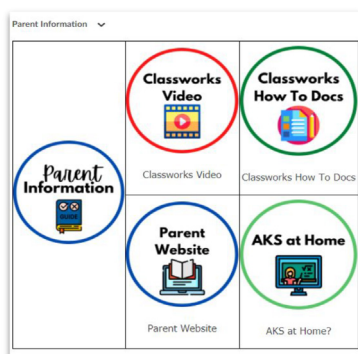

Ride the wave of learning with the self-paced digital Summer Enrichment+Acceleration (SEA) program. K–8 students and their families can access the Digital SEA eCLASS page for more information on how to begin. The digital SEA program will be available June 14–July 16.

On the Student Portal, go to Additional Resources to find a link for the Digital Summer Enrichment+Acceleration eCLASS page.

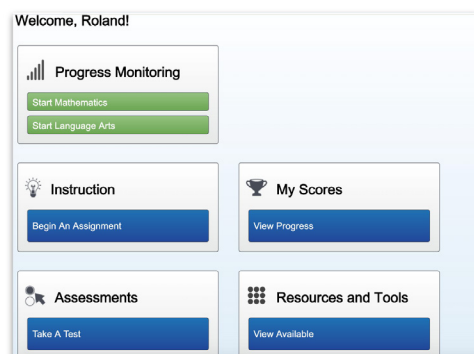

Student Video and How-To

Parent Video and How-To

Once on the Digital Summer Enrichment and Acceleration eCLASS page, parents and students will find information on how to access the lessons in Classworks and support for learning from home.

Students will be able to launch their Classworks lessons from this eCLASS page.

Students will work on enriching foundational skills from the previous year in Math and Language Arts. Once those skills are mastered, students can move on to accelerate their learning by working on skills needed at the next grade.

Classworks is available for all students in grades K–8 in the areas of Language Arts and Math. Classworks will be available from June 14 until July 16.

Families can learn more about Classworks and how students will use this platform during Digital SEA in this video: <https://tinyurl.com/GCPSDSEA>
