Harnessing ELAC's Potential: A Toolkit for Equity, Family Voice, and Shared Leadership

Shift English Learner Advisor Committees (ELAC) from compliance to meaningful partnerships!

Join this virtual learning opportunity to explore Santa Cruz County Office of Education's free online resource designed to help ELAC teams strengthen family voice, build leadership capacity, and create meaningful opportunities for shared decision-making in support of multilingual learners.

Explore ready to use resources including:

- Practical tools and meeting templates that make planning easier
- Family-centered resources grounded in the California EL Roadmap and ELAC Best Practices
- Inspiration boards for outreach, incentives, and leadership-building
- Stories and voices from families that remind us why ELAC matters
- Tools to intentionally build family leadership one step at a time

Participants will leave ready to explore the toolkit with their teams and begin shifting ELAC from a required meeting to a meaningful space for learning, family voice, and shared leadership.

Virtual event is offered at no cost.
Meeting will be recorded and
sent to those who register.
Interpretation is available
upon request.
