*This semester, Staff Development is experimenting with a new approach to delivering professional learning. Rather than offer workshops on a variety of days/times throughout the semester, we will be providing a few focused days of learning in a “mini conference” format. Whether you are working on earning hours for the TLC or just taking a few workshops of interest, we hope this new mode of delivery will allow you to better plan ahead and participate.*

**Stay tuned for information about each day's schedule of workshops on topics such as:**

- ♦ **Instructional technology**
- ♦ **Canvas**
- ♦ **Equity-minded classroom practices**
- ♦ **Mindfulness**
- ♦ **Growth mindset**
- ♦ **Microaggressions**
- ♦ **Guided pathways**
- ♦ **Serving various student populations**
- ♦ **Student support**
- ♦ **Active learning strategies and more!**
