Dear Possible Donor,

My name is Skylar Gustafson. I am a senior at Jefferson High School. I am enrolled in an English class called Capstone. Capstone is a class where we take real world problems and find a solution to help (relative to Rockford). My solution to help improve the quality of life for animals in shelters is by taking donations to Noah's Ark Animal Sanctuary. I am asking if you and your company would be willing to make a donation to my project. I am striving to get materials for their shelter such as toys, food, supplies, carriers, etc. I have made this my project because I love animals and want to contribute to making the quality of life for dogs and cats in shelter better. Any donation would make a huge impact and would be greatly appreciated!

Thank you for your time. My contact information is below.
