Recommended Report Parameters & Usage

Reimbursement Rate
- Store: Pharmacy where Rx was filled
- Start Date: 1/1/Current year; End Date: Yesterday
- Date Type: Fill Date
- Financial Implication: Financially Relevant
- Formulation Type(s): Formulation of drug in question
- Search for specific BINs, PCNs or Groups by using the search field just below the parameters
- Scroll to the right to see total/average performance values
- Click the blue Rx Count hyperlink to review individual claim performance
- Click the blue Back link at the top left of the page to return to the parent report
- Tip: Run the report again, but this time select both Brand AND Generic formulation types to see overall performance

Monthly Performance Trending
- Store: Pharmacy where Rx was filled
- Start/End Year: Previous year/Current year
- Start/End Month: Month the claim in question was filled
- Start/End Range (Months): Zero if single month, or select # if additional months (ex: 3 months = "2")
- Drug Named Group: Select 'COVID-19 vaccinations (exclude)' to exclude these Rxs (as applicable)
- Review period over period performance by formulation and by PBM
- Click the ⊞ icon to see plan level detail by PBM

* Note: All reports listed in this document provide gross profitability only. Rebates are not reflected.

Inquiry & Research

RxCompass Top NDC

- Store: Pharmacy where Rx was filled.
- Start Date: 1/1/Current year; End Date: Yesterday.
- Top: Change '25' to "25000" to capture all NDCs.
- Rank By: Select 'Rx Count'; sort by any column once the report loads.
- Formulation Type(s): Defaults to '(Select All)', or choose the formulation of the drug in question.
- Search for specific NDCs by using the search field just below the parameters.
- Scroll to the right to see total/average performance values.
- Sort the Drug Name column (by clicking   ) to pair drugs of the same name and strength alphabetically.
- Click the blue Rx Count hyperlink to review individual claim performance.
- Click the blue Back link at the top left of the page to return to the parent report.

Patient Value

- Store: Pharmacy where Rx was filled.
- Start Date: 1/1/Current year; End Date: Yesterday.
- Value Measurement Period: Defaults to 'Value for selected time frame', which is recommended.
- Search for specific patients by using the search field just below the parameters.
- Click the Total Fills hyperlink to review to individual claim performance.
- Click the blue Household Count hyperlink to see other patients with the same address.
- Click the blue Back link at the top left of the page to return to the parent report.
- **Tip: It is important to understand how the total household affects your pharmacy business.**
