Case Trends

Inyo County – New Adult and Pediatric COVID-19 Cases by Month

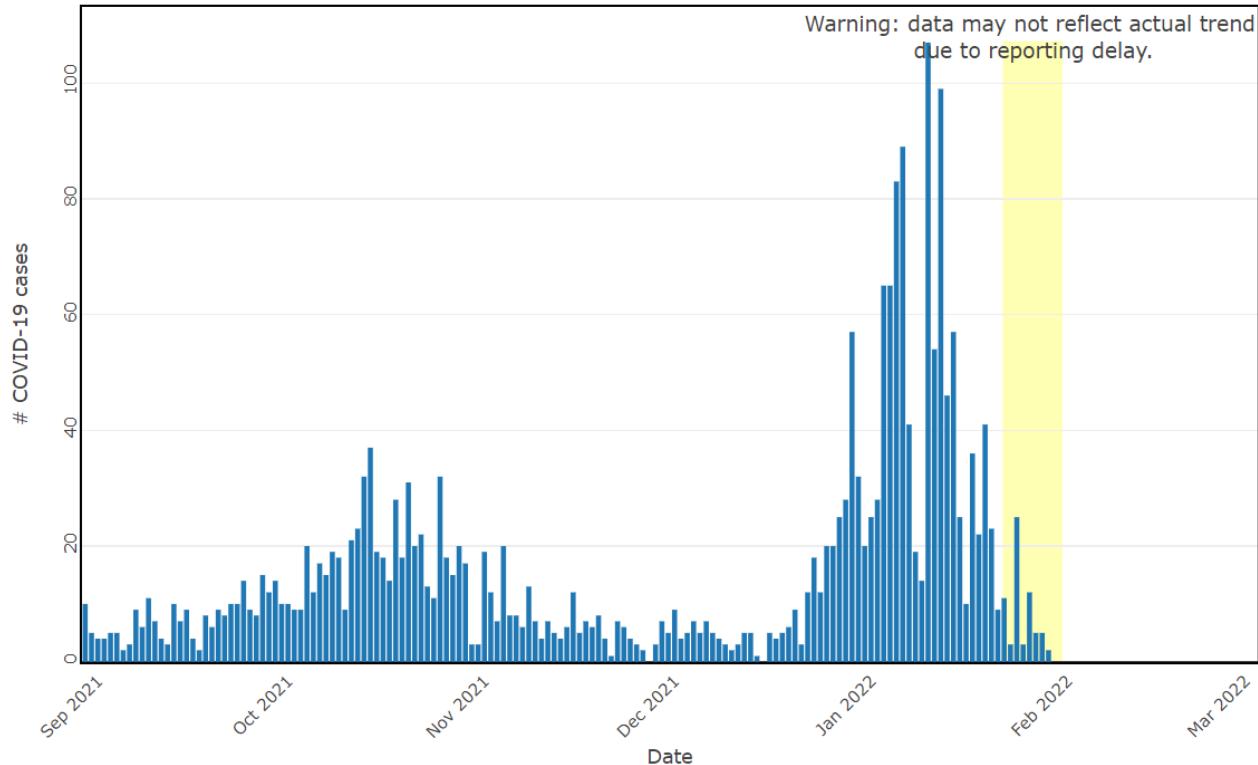

*January Cases as of 01/30/22

Notes:

- As of 01/04/2022, case counts reflect cases confirmed by PCR and antigen testing. Prior to 01/04/2022, only PCR-confirmed cases were included in data sets.
- Due to current stress from increases in COVID-19 cases locally and statewide on California infectious disease reporting and contact tracing platforms CalRedie and CalConnect and Inyo County Public Health, case counts may be underreported.
- There are six (6) cases with no known date of birth in January 2022
