

Discover Haverford welcomes Next Stop Coffee!

An adorable coffee shop on Haverford Road? Yes please! Next Stop Coffee located at 2528 Haverford Road in Ardmore is the next best place to enjoy coffee and beignets if you can't make it to the French Quarter. The owner, Kristina Minster has a bubbly, down to earth personality that creates a welcoming and inviting environment while you sip the homemade blends of coffee and espresso provided by Green Street Coffee Roasters.

Kristina is no stranger to the coffee world as she has worked in coffee shops for over 17 years. Like many baristas she began her coffee career at Starbucks. However, not long after working for the coffee chain, she wanted to step aside from the corporate side of coffee and got a job at Milk Boy. It was at Milk Boy that Kristina met Josh, the friendly face that you will see at Next Stop handing you your delicious cup of

happiness. Josh and Kristina have known each other since high school and remain good friends. You may have seen Josh around in other local establishments

playing incredible music at Ardmore Music Hall and 118 North. He also hosts Sam's Brick Oven Pizza Open Mic Night and gives drum lessons in the area. Kristina and her partner, Ben, live in Lafayette Hill, but are familiar with and enjoy being part of Haverford Township. They fell in love with the space on Haverford Road and had a wonderful experience with the landlord. "I love being in the coffee business and getting to see all of the regulars—you get to really know the people that are buying coffee," stated Kristina.

Next Stop has also collaborated with other local businesses such as Sweets on Darby and sells many of their pastries during the week. Kristina takes a lot of pride in the service and product that they offer at Next Stop. You will see her there every day making sure what they provide is delicious and fresh. Some fan favorites are the Breakfast panini, Zatar Croissant, Reading Draft Pumpkin, and Yogurt Parfait. As the weather gets

colder, feel free to utilize Next Stop's online ordering option. They are happy to bring your order out to your car. To learn more about Next Stop Coffee and to see their full menu, please visit <https://www.nextstopcoffee.com/>
