

Spouses' Program - Option #1

Meadery Tasting and Escape Room

This spouse's program is in two parts. The first part takes place at Room Escape Williamsburg (about 2 miles from Williamsburg Lodge), where participants will be briefed at the entrance to one of four small movie-set-type escape room scenes, given rules of engagement, and work as a team to accomplish a goal in keeping with the theme of their assigned escape room(s). Participants are then given just enough real-time hints to make the task achievable in the one-hour timeframe but not enough to make the task easy.

There are four themed rooms at this venue, one or more of the rooms will be used, depending upon the size of the group. Staff observes each room remotely and can send tips via monitor postings in each room, and they both introduce the task and ask a few debriefing questions at the end.

The facility can accommodate 2-28 people at a cost of \$35 per person with scale discounts available. A headcount is needed at least 10 days in advance with some flexibility if additional people do not require an additional room.

The second part of this program continues the camaraderie and adventure just a few blocks away at the Silver Hand Meadery & Honey Shop.

“Mead is a historic (colonial era) fermented drink with the creativity of craft beer and the elegance of wine, but in a category all its own. Meade is created by fermenting sugars found in honey, with additional herbs, spices, and fruit added to create unique flavors.”

The group will assemble in the Meadery's tasting room for a guided tasting, first of honeys and their many differences, then of mead wine itself for \$16 per person.

This will also provide time to further debrief the escape room activity and visit the Meadery gift shop before returning to the Lodge.

The entire program is planned for two hours.

Spouses' Program - Option #2

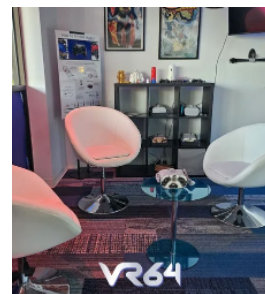

Virtual Reality Experience and Social

Join this spouses' program to leave real-world forestry behind to explore some *virtual* reality of your own choosing for a couple of hours!

Whether you're a gamer or just *game* to try something new, this spouses' program has one purpose, to have some unique fun in an exceptionally technical way, just a short distance from the meaty topics of the conference and the Williamsburg historic area.

Participants will be escorted to and from a high-tech virtual reality arcade that is a cushy, cozy space with all the user-friendly games and technology you could ask for, plus guidance on how to use it.

You can get in the VR swing seated, standing, by yourself, or engaged with others around you. Take all the reality breaks you want (although you might not want to) and enjoy some local wine, fine cheeses, and great camaraderie with other significant others from the conference.

The venue, VR64, offers high-end virtual reality gaming with over 150 game categories that you can play solo or with friends. Game categories include Friendly, Blasters, Sports, Fantasy, Horror, Musical, and Art. You can also relax with meditative floats through nature, escape with a roller coaster ride, swim with the dolphins, or save the world from a heart-pounding zombie apocalypse! Race your buddy on motorcycles, lock and load standing, or have a seat and let the fun surround you at virtual reality stations that combine ease of use and 360-degree swivel chairs for a stress-free virtual reality experience as well.

What is VR64?

Since 2019, VR64 has been a pioneer in the VR revolution, providing two arcade locations, helping schools set up VR labs, building an educational library, and producing 360-degree media. As virtual reality reaches a broader audience, they're expanding their services to meet growing demands. Imagine reliving your wedding day in stunning 360 video or transporting your students to a different world through immersive learning. With VR, the world isn't just bigger—it's boundless!
