

**Stop Private Jet Expansion at Hanscom or Anywhere** have been permitted by Massport to picket/protest at Hanscom Airport on Mondays and Fridays until 9/27/24. We were given a small area to stand and a total of 10 people at a time. Alex Chatfield or I will be there for every time slot. We chose the times after talking with the neighbors about prime private jet arrivals and departures. Alex and I will bring enough signs for everyone. Parking is available near our assigned protest site, and we can direct you to the correct area.

After you sign up we will send a reminder email with more details.

**So now we need your help!** Please sign up on [the google spread sheet](#) and invite a friend to also sign up. Stand outs are a fun way to spread our message and to catch up with fellow climate activists, so come join us.

If you have any questions/concerns please be in touch ( text/email is best)
