

Our Urban Wildlife Needs You to Observe & Record!

Take action to **safeguard** your community, the environment, wildlife, domestic pets, and children from the hazards associated with the widespread use of anticoagulant **rat poisons** in our cities and towns.

What you'll do: Using the EwA SGARS Brigade app, **report** baits and their likely victims, providing critical data for **science**, **advocacy**, and **policy-making**. It's simple, **empowering**, and educational!

Join us today and make a meaningful difference for tomorrow!
