

# Free Inclusive Biology Curriculum

- Synbio for Everyone is a nonprofit organization that has developed an award-winning 400-paged **inclusive, hands-on** biology curriculum.
- 19 activities for students K-12 cover a broad range of biology essentials and have been developed using a Universal Design perspective to be inclusive for people with disabilities.
- Activities come with videos to facilitate remote learning, audio versions with adaptations for the visually impaired, diagrams to facilitate students with intellectual disabilities, and captions to ensure screen reader accessibility.
- A preview of the curriculum, including the Table of Contents, outline of accessibility considerations, and relevant academic standards can be found here: <https://tinyurl.com/yyrwt4tu>
- Here is a sample video: <https://tinyurl.com/yya8atr3>
- This curriculum has been tested with autistic students, students with visual impairments, and students at underserved schools in 5 countries encompassing 3 continents.
- In 2019, this curriculum won the Best Education & Public Engagement Award at the iGEM global synthetic biology competition.

Please reach out to [synbioedu@uw.edu](mailto:synbioedu@uw.edu) if you are interested in using the curriculum, and we would be happy to provide a free copy!

*Synbio for Everyone is a nonprofit organization run by students at the University of Washington whose mission is to improve biology education accessibility and reduce educational equity gaps in STEM by writing curriculum and conducting educational outreach events.*
