  - With exception of 1-2 absences excused by the instructor

## "WILL I GET CERTIFIED?"

Yes! You will get **OSHA-10**, **NFPA 70E**, and a **certificate of completion of the course**. Electric Vehicle Supply Equipment (EVSE) is a growing field due to the increasing adoption of electric vehicles (EVs). Job opportunities in this sector span a range of disciplines and skill levels. ChargerHelp! has worked with various OEM's to help SAE design the Body of Knowledge. This course will give participants a certification of completion and prepares them to take the SAE examination. While this exam is not yet required to become an EVSE technician, it is looked highly upon by hiring companies in this field.

Ask us for more information on the SAE examination!
