Your Input on Housing Options Needed!

Your input is needed! The Housing Subcommittee of the Massachusetts Autism Commission is conducting a survey to identify housing options currently available to people in Massachusetts with autism spectrum disorders (ASD). The Committee is holding Community Input Sessions to gather information from adults with ASD as well as their families and advocates about housing needs and preferences. Some questions that will be discussed during these Community sessions include:

- Where do adults with ASD currently live? Is this where they prefer to live?
- What would an ideal living situation for an adult with ASD look like?
- Do younger adults have the same preferences?
- What supports are needed to assist adults with ASD to live in these types of living situations?
- What are the barriers that prevent adults with ASD from living in the setting of their choice?
