

## ADSOEF SEPTEMBER VOICE ARTICLE 2019

By Marilyn Slusser, Scholarship Committee Chairman

Exciting news from the Scholarship Committee. Check out our complete article regarding OSO member responsibilities and information about our Esther H. Strickland Student Teaching recipients. We have many responsibilities to help strengthen our membership

The school year 2019-2020, has just begun, and we want to wish all teachers, administrators, tutors, and substitutes a successful school year. Several of our Esther H. Strickland Student Teaching Grant recipients are beginning their student teaching career and needing our support and encouragement. The ADSOEF Directors and OSO members are being called upon to help these new educators face the challenges of today's education.

The Directors are suggesting that chapters in the area of a university, or where we have recipients, contact the education department of the university, or a student teacher advisor and share information of DKG. We are suggesting that these new, young educators be invited to chapter meetings in your area, ask if the students would share ideas about today's education and eventually suggest they become collegiate members of the chapter. We need to share information about scholarships and the benefits of becoming a DKG member. These objectives can all be accomplished if we communicate as described above, and will certainly enhance each chapter that follows them.

Currently, we have Esther H. Strickland recipients at Wright State University, Ohio University-Athens, Ohio University-Southern, Bowling Green State University, and University of Toledo. Please contact ADSOEF Scholarship Chairman, Marilyn Slusser <[hmstreas@gmail.com](mailto:hmstreas@gmail.com)> for further information regarding these recipients. We are eager to see if our ideas/suggestions for chapters will help young educators of today.
