

# Ohio Convention 2021 Breakout Sessions ...Descriptions

## Feb. 16 Choose Hope: Trauma Informed Teaching

Many schools across America are seeing a greater number of students displaying behaviors of neglect and trauma, effecting their education. The developmentally-informed and biologically-respectful framework of Dr. Bruce Perry, the Nuerosequential Model in Education, provides insight related to how the brain works, develops, and changes in response to trauma. Be introduced to the concepts Western Reserve Local Schools (Huron County) is putting into action in an effort to instill hope and to continue to create a culture at WR in which all of our students grow and thrive. Libby French, School Counselor, Western-Reserve Middle/High School (PDU Credit)

## Feb. 23 A DKG/OSO BOOK CLUB STUDY -- Discuss, reflect on the science of the brain and child trauma.

Read "The Boy Who Was Raised as a Dog" by Dr. Bruce Perry in preparation for a discussion on how trauma affects a child's mind and how they can recover. The book which takes readers through real-life stories, was described as tragically interesting. In this classic, Dr. Perry explains what happens inside the brains of children exposed to extreme stress and shares their lessons of courage, humanity, and hope. Only when we understand the science of the mind and power of love and nurturing can we hope to heal the spirit of even the most wounded child.
