# Water Quality and Agriculture in New York State (Webinar)

---

Dr. Christa Kelleher, Dr. Teng Zeng, and Dr. Rebecca Schewe will share the results of several years of studying water quality in Central New York and New York State and potential links to agricultural conservation behaviors. They will report the results of a statewide survey of agriculturalists in New York State, detected levels of organic micropollutants in Central New York waterways, and other aspects of statewide water quality.

Go to the Central New York Organic Micropollutants website for more information on the project: <https://ckellehe.expressions.syr.edu/usda-cny-organic-micropollutants/>.
