Hello Handbell Friends!

I hope you have all had a restful summer and are looking forward to an awesome year of ringing!

We have EIGHT Skill building workshops scheduled this fall. Please be sure to look for a local workshop to attend as these are a great way to jump start the season.

Also, I am looking to assemble an exploratory committee of volunteers who wish to speak/discuss/brainstorm about how to include more young adults in handbell ringing. I am looking for anyone with an interest in or experience with college handbell ensembles or if you feel passionately about involving more young ringers in Area. I would like to start the ball rolling soon, so please contact me at educationliaison.area1@handbellmusicians.org.
