

# CHIME LOANER PROGRAM

## Best Ever Free Music Tool

*Encouraging schools and other non-profit groups to develop musical programs using handchimes*

As of this issue, I have received one application for the 2019/20 school year. There are 4 sets of chimes and books still available for 2019/20.

In the 9 years that I have been chairing this program, the chimes have been loaned to:

- 22 schools, 5 churches,
- 5 community groups, and
- 1 home school coop.

55% have been loaned in MA, 21% in NH, 18% in VT, and 6% in RI. There have been no loans in CT or ME in that time frame.

I would love to have some applications from CT and ME. I will be all over the place at Festival Conference but hope to connect with a lot of you at some point.

Remember, this loan is primarily for schools but **is open** to *community organizations, home-school coops, churches, after school programs, college activities, any non-profit organization looking for a fun, informative, rewarding activity.*

Also, chimes are adaptable to all types of learning styles and challenges.

If each person who reads this article would give the above information to one person, we could get the remaining sets in the hands of more awesome groups.
