

# Notes from the CHAIR

Hello Area 1,

I am writing this after wrapping up an historic first-of-its-kind 4-day National Seminar.

The Handbell Musicians of America National Board and seminar planning team did an exceptional job at pulling together an all online seminar full of classes, conversations, and even great concerts.

Area 1's own Shoreline Ringers was even featured as one of the pre-recorded concerts. Even though they were pre-recorded, all of the concerts still had great energy. The best part of this format was that people who could not normally attend National Seminar were able to participate. I hope that for future events they are able to take some of the best parts of this event and incorporate them.

I hope everyone is staying safe and well, and I look forward to when we can ring together again, but in the meantime, please keep sharing your experiences with all of us, we love to see the great innovations happening.

Happy Ringing,  
Lisa Arnold
