November 3, 2026

US-95, Fruitland to Payette

Construction Update
November 3 to November 15

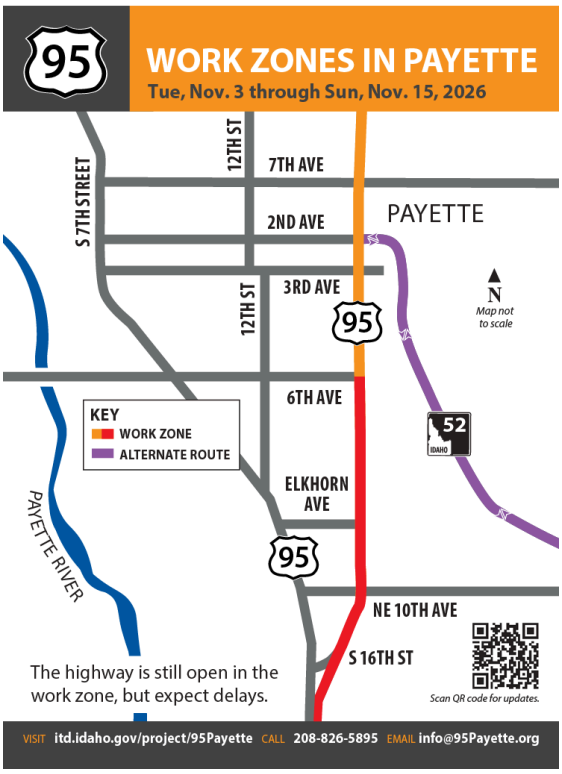

Paving in Payette

Paving through Payette has been delayed by weather. Placement of asphalt is now expected to wrap up over the weekend of November 6. Once complete, **crews will grind bumps and fix other areas to create a smoother driving surface**.

Work through Payette also includes curbs, gutters, approaches and sidewalks.

What to expect:

- **Y and 6th Ave S:** One lane with flaggers directing traffic when crews are present.
- **6th Ave S to 7th Ave N:** One lane of traffic in each direction.
- Please remember to **slow down** and watch out for **shifting traffic patterns** and **abrupt edges** along US-95.

Lane closures will continue on US-95 throughout Fruitland. Work will focus on approaches, curbs, gutters and sidewalks. Additional **bump grinding and other work will be done to create a smoother driving surface.**

At least one lane of traffic will be open in each direction, and accesses to businesses will remain open.

Please remember to **slow down** and watch out for **shifting traffic patterns** and **abrupt edges** along US-95.

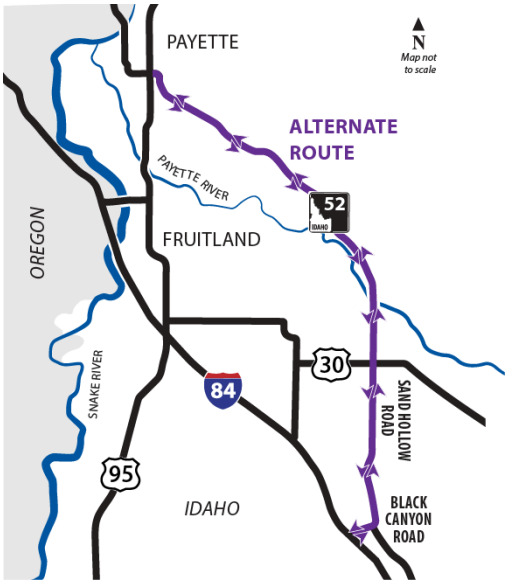

Construction activity, locations and schedule may be subject to change.

Alternate Route

This project is expected to create congestion and significant delays in the Payette and Fruitland area. Please plan ahead, **check 511** and allow for extra time or consider an alternate route.

Please remember:

- Use caution when driving in work zones and be courteous of other motorists
- Watch for flaggers in the roadway
- Slow down
- Don't block intersections, driveways and entrances to businesses
