

# Destination Science Summer Science Camp

One Day I  
Can Be...

An Inventor

An Architect

An Engineer

An Astronaut

## Roller Coaster & BioBot Camp

All New!

**Build your own BioBot Explorer and discover the physics of coasters and games**

Be first in line at the Wildlife Coaster Park. Create wacky coasters and take home your own roller coaster ride and carnival fun. Defy gravity with drops, twists and turns. Discover amusement park games with your own motorized bowl-o-rama. Ignite your inertia and experiment using Newton's laws of motion. Build an all-in-one battery and solar-powered BioBot that transforms into 5 different creatures to explore the 5 major earth biomes. Your BioBot will roam the desert, tundra, taiga, grassland, and rainforest to learn about wildlife care and conservation. Discover the science behind bubble magic, flashing lights, arachnids, and insects. Get ready for a wild adventure!

## Rescue Robot Mystery Camp

All New!

**Calling all Robot Builders! Enter the DS robot lab to design and build your very own Rescue Robot**

Can you train your bot to overcome diverse terrain challenges to reach and retrieve the hidden crystal treasure? Parade, race and battle your one-of-a-kind robot creation. Introducing the all new Solar MiniBot! But wait...they were here but now they're gone! Join the DS detective squad to solve this mystery by following the clues and accept the challenge of mastering forensic science. Become the detective that brings the MiniBots back to camp and home with you. This thrilling camp includes building your own electric alarm and turbo air machine, spinning gyro tops and more!

## Artemis Moon Mission Camp

All New!

**Rocket into space & discover NASA's mission to explore the moon while building your very own LTV**

Are you ready to live on the moon? Join the DS space force and NASA to prepare to inhabit the moon. Build your own motorized Lunar Terrain Vehicle (LTV) to explore the moon's surface. Lift-off into space with crewed and uncrewed rocket science to uncover moon mysteries as we reenact Artemis I and explore the future with Artemis II and III. Launch rockets fueled by air pressure, blasting water, and bubbly reactions. Discover the secret behind launch windows as you build and master your motorized launcher. Explore planets, dry ice comets, rocks and minerals and encounter aliens and more. Ready to have a blast? The countdown starts now!

## The Fun Science Day Camp for Curious Kids Ages 5 to 11!

**Hours:** Monday - Friday 9:00am - 3:00pm

**Locations:** Over 100 locations nationwide  
Redeemable at most locations  
Visit our website for dates and locations near you
