

St. Serra Students Receive City of Rancho Santa Margarita Certificates of Recognition

St. Serra student's Milan E. and Talon C. received Certificates of Recognition from the Mayor and City Council of Rancho Santa Margarita for their many outstanding achievements as part of the city's student recognition program. Established by Mayor Pro Tempore Holloway in 2004, the program recognizes students, their teachers and principals, selected for demonstrating qualities such as academic excellence and achievement, outstanding performance in athletics or the fine arts, and community involvement.

Milan E., St. Serra first-grader, was one of the recipients. Her teachers describe her as a student whose deep love for God is evident in her words and actions. In addition, her classmates say she is a great friend who has the best sense of humor and always makes them smile!

Talon C., St. Serra eighth-grader, was the other recipient. Talon was selected by the St. Serra staff for using his talents and time to give back to the greater community at St. Serra. He is the school's go-to person with anything AV related. His teachers say Talon's heart of service shines daily on campus as he answers any call that comes his way with a smile.

The St. Serra Community extends a big Congratulations to these two students for their outstanding accomplishments as members of the RSM and St. Serra Community! Go Bears!
